Proud Member of
AAFDA
 Association of Agricultural Field Days of Australasia
www.fielddaysanz.com

Welcome to the 2025 *Mildura Field Days!*

In 2015, I was appointed as the Coordinator of the Mildura Field Days and in that time, I have worked & continue to work with some wonderful people to bring the annual event to fruition for farmers, families and for the community.

We look forward to welcoming you to the event to enjoy and experience everything the event has to offer. It will be two days filled with family friendly activities, entertainment for all ages, loads to see & do and of course, plenty of delicious food.

It is cliché, but true! There really is something for

everyone at the Mildura Field Days! From the large-scale farmers right down to the garden enthusiast and everything in between and as always, the Mildura Field Days haven't forgotten the kids.

From humble beginnings as the Gadget Day, the event has become an important annual event and a vital link between community and agriculture. It is a place to learn, a time to socialise and enjoy everything the event has to offer.

Thanks goes to Dried Fruits Australia, who established the event all those years ago and who continue to

support our event. Big thanks also goes to our media partners who help us promote the event far and wide. We also welcome the collaborative group comprising, the Murray Valley Winegrowers, the Australian Table Grape Association and Dried Fruits Australia individually and as a collective to the 2025 Mildura Field Days.

Lastly, I would like to thank our committee, our dedicated volunteers and the Mildura Racing Club Team as well as our fabulous exhibitors, without whom we wouldn't have an event. It could not

have been done without all of these wonderful people.

Now "Let's Have a Field Day"

Jo Rodda

**Mildura Field Days
Coordinator**

Welcome from the Committee

The annual Mildura Field Days has a long history in the region, growing from a Gadget Day to become a premier event on the annual calendar.

This year we celebrate ten years of working with our Coordinator, Jo Rodda. We thank Jo for her tireless efforts and look forward to hosting the 2025 Mildura Field Days for both farmers and the broader community.

This year's event will not disappoint, with loads of things to see and do for those on and off the land.

The Mildura Field Days

Mildura Field Days Committee: Brendan Cockfield, Allan Lyell, Jo Rodda, David Lyons & Daryn Gardner

is where agriculture and community unite and is an important tool in linking those on the land with the latest in technology and the broader community to agriculture.

Without children, we do not have a farming future and here at Mildura Field Days, we understand the need to introduce children to agriculture and to encourage families to

our event. Our gate prices remain the cheapest in the country at only \$10 per adult and students, 18 & under free, along with any supervising teachers and staff.

We hope you enjoy the free activities and entertainment and pick up a bargain or two. You never know, you might come away with a new idea or opportunity.

The committee thanks all the exhibitors, volunteers and attendees for helping us to make the Mildura Field Days the great event it is.

A message *from the Mayor*

On behalf of Mildura Rural City Council, I am excited to celebrate the opening of the 74th Annual Mildura Field Days, a two-day event that has become a valued tradition in our region.

The Mildura Field Days highlights the best of our innovative community, showcasing the finest in horticulture, farming and

local food products. It's an opportunity to appreciate the talent, entrepreneurship, and hard work that define our region's industries.

This event is a celebration of community spirit, bringing families, businesses and visitors together for a wonderful day out exploring what we do best complemented by

entertainment, activities, and inspiration.

Coordinating an event of this scale is no small task, and I extend my congratulations and gratitude to the organisers, volunteers, sponsors, and exhibitors who make it all possible. Your efforts contribute to the continued success of this much-loved event.

To those who have travelled to join us, welcome to our beautiful region. I trust you will enjoy exploring all the unique experiences our community has to offer.

Best wishes,

Cr Helen Healy
Mayor
Mildura Rural
City Council

The 2025 Mildura Field Days at a glance...

WHEN: Friday 16th May & Saturday 17th May.

WHERE: Mildura Racing Club, 53 Racecourse Road, (off Cowra Ave) Nichols Point.

SPECIAL NOTE:
NO DOGS or other pets please – the crocodiles may eat them.

OPENING TIMES: 9am to 5pm Friday & 9am to 4pm Saturday

CAR PARKING: The main carpark is located in the centre of the racing track, with disabled parking at the main gate. Follow the signs and the directions of our helpful parking attendants.

ENTRY PRICES: \$10 for adults, \$5 for Aged Pensioners and free for Students 18 & under.

CATERING: A range of catering options are available on-site including gluten free and vegetarian fare.

WIN: Each paying adult will be entitled to a single entry ticket into the Gate Prize of a John Deere Mower from our friends at Haeusler's. Enter at site H-0.

AS well as an entry ticket the \$1,000 worth of fuel prize as sponsored by the Field Days. Entry at the Site Office.

Every child attending the event will be entitled to a single entry into the John Deere Kids Prize Pack. Enter at site H-0.

THE KIDS WILL LOVE:
Being entertained by Black Snake Productions wildlife demonstrations, **Get Your Groove On**, the **Future Farmers Walk**, **free face painting**, the huge children's play area, the EnviroEDU Wildlife Displays, Camel & Pony rides, Hands On Pets & lots more.

MADSTYLE MOTO TRAIL BIKE DEMONSTRATIONS:
Check them out at site H-30.

ENTERTAINMENT FOR ALL:
A highlight of the 2025 Mildura Field Days will be fabulous **MadStyle Moto Trail Bike Demonstrations**. There will be three shows per day!

A range of fabulous performers will entertain on the Dried Fruits Australia Stage. Located in the food court, be sure not to miss it.

Favourites at the Field Day are the Tractor Restoration and Appreciation Club of Sunraysia (TRACS) vintage machinery display and don't miss the emergency services exhibits with Victoria Police, Ambulance Vic, CFA and for a special treat, this year we welcome the Royal Flying Doctors to our event.

Mildura Field Days are proud supporters of local charity C.H.A.I.L.I.S. (Children Having An Illness Living In Sunraysia). C.H.A.I.L.I.S. will be collecting donations at the gates and you are invited to join us in supporting this very worthwhile charity that supports local families.

FRIDAY 16th MAY
12.30PM – Opening ceremony

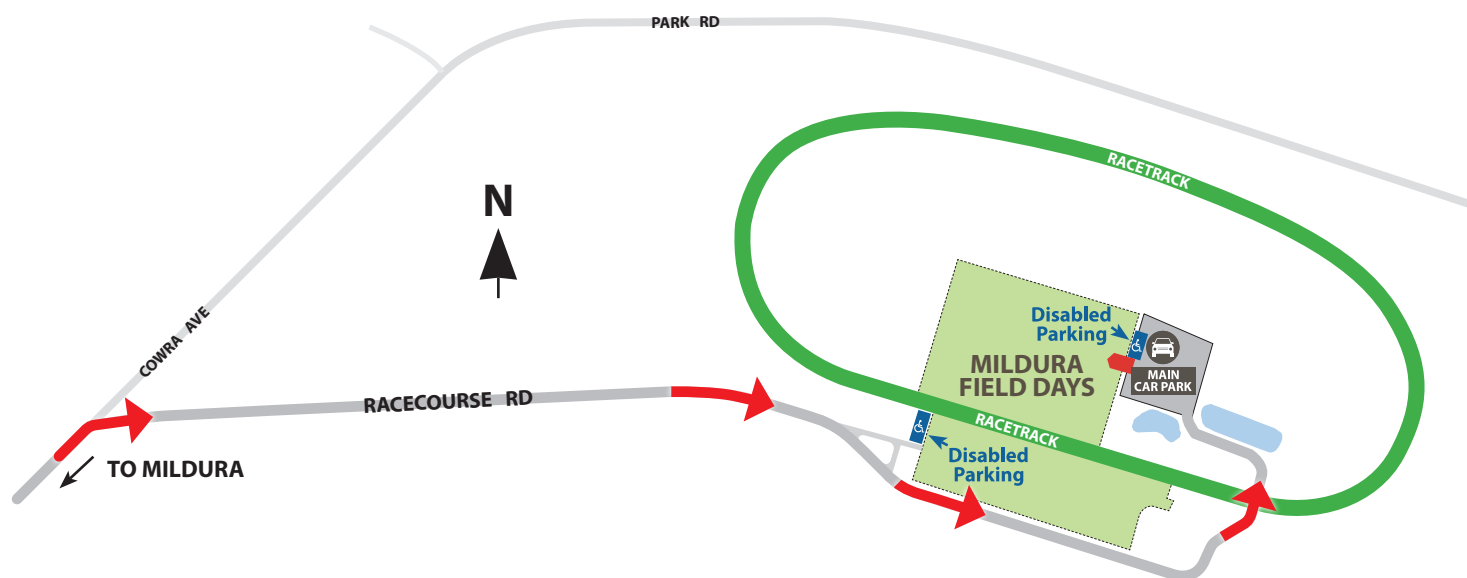

SATURDAY 17th MAY
2.30PM – Major Gate Prize raffle draws, Best Site Awards presentation & the Dried Fruits "Industry Contribution Awards".

Parking

Planning on coming to the 2025 Mildura Field Days? Don't forget parking is located in the centre of the Racecourse.

Please follow the signs and the directions from our friendly parking attendants. It's simple, just veer to the right at the

roundabout and travel down between the racecourse and the Horse complex, through the rear gate to the track centre.

Family Entertainment

The Mildura Field Days is a family fun filled event!

The Field Days is a place for farmers and community to unite. A place to learn and to enjoy everything the event has to offer.

Always popular at the Field Days is the Future Farmers Field Walk, where the kids have fun filling their goody bags as they visit the stalls along the Trail.

And as always there is free entertainment on the main stage including the very popular kids show, Get Your Groove On. Black Snake Productions are back too, along with the Billabong Ranch Camels and the Mildura Horse Riding School pony rides. The Tractor Restoration & Appreciation Club's display of vintage machinery is sure to please and everyone will love Hands On Pets.

Our emergency services display will feature Victoria Police, Ambulance Victoria, Crimestoppers and our Fire Services. Joining us also this year is the Royal Flying Doctor Service and we are thrilled to host at this year's event, the MadStyle Moto crew who will delight audiences with their Trail Bike Show.

There is loads to see, do, experience and enjoy!

DESIGN GROUP

Achieve a Healthier, More Profitable Farm: The Biolink™ System towards Sustainability

For many Australian farmers, achieving both sustainability and profitability can feel like a constant balancing act—but with the right tools and support, it's not only possible, it's within reach.

At Biolink 4 Plants & Animals, we believe that sustainability and profitability should go hand in hand. Our range of microbial-based fertilisers, soil stimulants, and animal probiotics are designed to enhance soil health, boost crop and pasture yields, and support healthy animals—all while driving down input costs.

As farmers face increasing pressures from climate change, rising fertiliser costs, and the need for more efficient land management, Biolink 4 Plants & Animals offers a practical, results-driven solution.

Our products use beneficial microbes to improve nutrient uptake, water retention, and soil structure.

By integrating Biolink™ products into your farm's management system, you can reduce fertiliser usage by up to 50% without sacrificing yield—helping your farm become more profitable and sustainable in the long run.

Our microbial-based solutions not only promote healthy, nutrient-dense soil but also improve animal productivity. For instance, farmers who use our Opti-Gut and Loose Lick products have seen improvements like lambs being turned off 20 days earlier with less feed, thanks to enhanced nutrient uptake.

The Biolink™ System accelerates the

process of soil regeneration, combining six potent microbial groups with humic fulvic acid to deliver powerful results. With products like Biolink™ Germinator or Bio-Hum, you can integrate this system seamlessly with your conventional fertiliser to optimise your farming operations—without compromising on sustainability.

Join us at the Mildura Field Days, Site H-170, where we'll showcase how Biolink can support your farm's long-term health and profitability. Let's discuss your challenges and explore how we can help you build a smarter, more sustainable farming future.

How to get the best out of 4G and 5G coverage

- 1 Always update your phone's software. Check your **software is updated** (www.telstra.com.au/support/mobiles-devices/3g-closure#lightbox-networkSettings) and network settings are correct, then **set your network to automatic**.
TIP: to make sure you have the latest software update, power cycle your phone by turning it off for a few minutes and then turning it back on. This forces the phone to refresh its network settings and will bring up the latest software update available
- 2 In a regional, rural or remote area? For optimal coverage, we recommend a Bluetick device. You can also consider getting **coverage extension devices** (www.telstra.com.au/coverage-networks/network-coverage-extension-devices) for home or on the road.
- 3 Ensure your Telstra Go Repeater or Cel-Fi Go is set up for 4G. Make sure it's configured **correctly to boost 4G signal** (<https://qrco.de/bewdvA>).
- 4 Check your location on our **coverage maps** (www.telstra.com.au/coverage-networks/our-coverage). Telstra 4G coverage is equivalent to sites previously covered by 3G on our maps but remember that these maps are a guide only.
- 5 If you need support with low signal or congestion issues after the closure of our 3G network, call us on **1800 990 853** between Monday to Friday 8am to 7pm. You can also submit a 3G customer support enquiry via webform, chat to us online or visit one of our stores. For more information go to www.telstra.com/3Gclosure

Remember, fewer bars of coverage on your new phone doesn't mean less service – there are no 4G standards for signal bars.

For more information, scan the QR code.

Australian Inland Botanic Gardens

In the far west of NSW is a unique and very special place, The Australian Inland Botanic Gardens, it is a wholly community owned and operated botanic garden that sits at Mourquong, NSW. The Gardens are funded by two councils in both Victoria and NSW. Much like the Sunraysia area itself, the garden is a melting pot of plants from many corners of the world.

It all came about way back in 1983 when a diverse group of individuals comprised of CSIRO scientists, horticulturists, botanists and local Sunraysia champions identified the need for a semi-arid land botanic garden. It wasn't until 1986 that the Sunraysia Oasis Botanical Gardens Inc group were officially formed. Two years later, in 1988,

a 150 hectare site became available in the NSW local government area of Wentworth. This has now grown into the Australian Inland Botanic Gardens, a testament to what community spirit can achieve.

Officially opening to the public four years later in 1992 after many hours of tireless work from a small number of employees and more than 350 volunteers from both sides of the border. It now boasts four staff members and more than 100 volunteers that keep the 50 hectares of gardens and 100 hectares of native bush in check. No garden is complete without a place to have a relaxing meal or beverage, so the gardens have a coffee shop and other amenities on the site.

There are many special features that make the gardens an experience to add to the bucket list, such as the Seed Pod Ceiling, Peaka Homestead, the Magenta Woolshed, the Garmpang Homestead, The Sturt Desert Pea Bed, a Children's Garden and Playground, the Nature Trail, and the Bush Chapel. A major feature of the gardens is the recently heritage listed 2500 year old, WOW Tree.

It is not just plants from semi-arid regions that make it a great place to visit but also the spectacular Rose Garden featuring over 1,600 colour coordinated bushes. Visitors can enjoy a tractor-train tour through

the gardens every Saturday at select times or by appointment.

All this for a gold coin donation, it is a credit to the dual state funding model as well as a community effort to bring such a unique offering to visitors from not only the region but across Australia and from overseas.

Find out more about the Gardens at the Mildura Field Days – Site G-205.

Spagnolo Engineering and Kameleon Coating

Spagnolo Engineering is a name well known in the Sunraysia district and to the wider farming industry. For over 35 years they have been designing and manufacturing Agricultural Equipment locally for both the domestic and international markets.

Fred and Joseph Spagnolo are constantly motivated to invent, develop and manufacture new products. 'The process starts rolling once we see there is a need in the field' Fred says. 'We brainstorm an idea, then have to overcome the challenges of design and manufacture to make sure the equipment will work efficiently in the field'. Father and Son are passionate about designing products that make life easier for the Farmer. Fred says we 'thrive on the challenge'.

Spagnolo Engineering decided to return to the Field days this year to support the community event and showcase some of the new products they have to offer.

You will again see the SG Pruner on display. There have been some huge changes made to the machine since its introduction in 2002. The changes have seen the Pruner continue to be the most sought out pruner on the market today.

The wide range of new products include Double Wine Bin Trailers, Under-vine grass Trimmers, Twin Row Rotary Green Trimmers, Fertiliser spreaders, Ute trays, Fresh fruit picking trailers, Picking trollies, Full hydraulic sweepers and Earth Anchors. This year you will see the brand-new Patent Pending Vine Cover clip. The ergonomically designed cover clip securely holds the vine cover in place, minimising damage to vine cover, decreases hand labour and will not cause tyre punctures.

Spagnolo Engineering not only designs and manufacture and service their own products they are still an Engineering business that offers their expertise in

general repairs, welding and custom fabrications.

Kameleon Coating is a branch of Spagnolo Engineering. Fred says he first started sandblasting and powder coating purely for his own manufactured equipment. He quickly saw the need to open to the public, offering powder coating of fencing, wheel rims, antiques, car parts, outdoor furniture, Ute trays and any metal product. They have a wide range of colors on display to choose from.

Spagnolo also offer expert Hydraulic services such as overhauling and repairing all hydraulic components with an extensive inventory of parts to meet a range of needs.

Spagnolo continues to provide exceptional back up service keeping machinery down time to a minimum. Parts are always readily available.

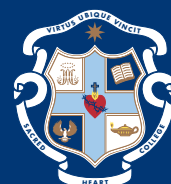

2025 Boarders from Mildura and surrounding areas.

A home for all Hearts

Sacred Heart is a place of welcome, hospitality, family spirit and student achievement, both within and outside of the classroom.

As a co-educational secondary college for Years 7–12, with boarding accommodation and care from Year 9, Sacred Heart College is a community connected by a love of learning and service to others, where your sons and daughters will grow Courageous Hearts.

Australian Tyre Traders

Australian Tyre Traders (ATT) have a strong commitment to industry and agriculture with Australian designed tyre brands that have developed specifically to the needs of the Australian agricultural and transport industry needs. They design and innovate three premium Australian brands, Haulmax Tyres, Harvest Tyres and Halitrax Tyres.

Haulmax tyres are designed specifically for the Australian commercial trucking industry which are subject to incredibly unique conditions such as high temperatures, long distances, the types of loads and the number of trailers being towed. Halitrax tyres are designed for off road use

In addition to their own products, they also carry and exclusively distribute a range of international brands including Ascenso and Exmile Tyres. They stock 2000 tyres to service the diverse requirements of all the agricultural applications in Australia.

The feature product for this year's Mildura Field Days will be the Ascenso VF or very high flexion tyres. These differ from standard radial tractor tyres that run at set pressures in that these tyres are designed to handle higher loads at lower air pressures. They are typically used in machinery like tractors, harvesters, and loaders, where they help reduce

soil compaction and improve fuel efficiency.

The larger footprint of the VF tyre gives it a broader contact area when compared to standard tyres, which helps spread the load over a larger area, reducing the pressure exerted on the soil, reducing the risk of compaction. With a lower inflation

pressure, without compromising load-bearing capacity, this further reduces the amount of pressure exerted on the soil. The tyres also have more flexibility in the sidewalls, helping the tyre conform to the soil surface, which can further reduce the risk of compacting the soil, especially in sensitive conditions like wet or soft ground.

Headquartered in Geelong, Australian Tyre Traders work closely with local dealers and only wholesale to suppliers in the regions to keep a strong local service network in local businesses as they have a strong philosophy of supporting regional areas to ensure that customers are provided with robust service and support. Sporting a network of more than 700 locations across the country, eight warehouse locations covering Victoria, Tasmania, New South Wales, Queensland, North Queensland, South Australia, Northern Territory and Western Australia and more than 70 staff the commitment to the customer is solid.

Children Having an Illness Living in Sunraysia

C.H.A.I.L.I.S. (Children Having an Illness Living in Sunraysia) is a local charity which was born from one man's desire to make a difference and what a difference it has made to the lives of many local families who have found themselves on a journey with a child with an illness or life limiting disability.

The C.H.A.I.L.I.S. Family Support Program has been operating since 2015 and at any given time C.H.A.I.L.I.S. has a portfolio of

families being supported and depending on the circumstances and the child's or children's health needs at the time, financial support is given to families to enable them to focus on their children's journey to wellness rather than carrying the stress of financial pressures.

The support provided to families by C.H.A.I.L.I.S. is as individual as the families themselves. Support is not restricted to purchasing equipment for example with families supported

according to the family's needs. Support includes monetary, travel, accommodation and equipment requests.

The other unique aspect of C.H.A.I.L.I.S. is that 100% of the funds that are raised or donated is passed onto families. Administration costs are covered by annual fees paid by Board members or by direct payment by those same members of accounts such as insurance.

Mildura Field Days are proud to

support the work of C.H.A.I.L.I.S. and encourage patrons to make a donation into the collection buckets of the C.H.A.I.L.I.S. volunteers at each gate or make a donation online or over the counter at any branch of the Bendigo Bank.

It's a great day out

Billabong Ranch

Billabong Ranch is based in Echuca, but this business is no stranger to the people of Mildura, they are here often with their camels and can be seen at events such as the Mildura Show and of course the Mildura Field Days, with this year being no exception. This year they have added to the camel rides with their animal nursery featuring goats, sheep and lambs, puppies, kittens, ducks, chooks, rabbits, guinea pigs, as well as a pony.

Rocky Acquisto, one of the owners and operators of the Billabong Ranch, is passionate about camels and the important part they play in the history of Australia. From the early Afghani cameleers that came to Broken Hill to open the outback to the part that

Australia plays in having the only wild camels anywhere in the world wandering through the outback.

"The camel rides give people an opportunity to meet the camels and go on a short trek, it's always a great bucket list item and also a good way for families to get out and have a great day," Rocky said.

"It's a family business and we are lucky to do what we love, working with animals and preserving our Australian heritage"

"It's a family business and we are lucky to do what we love, working with animals

and preserving our Australian heritage. We have 20 camels and 150 horses, we produce 80 - 90% of our own hay on the farm. We are really trying to keep that Aussie pioneering heritage alive. Once it's gone the kids no longer have an opportunity to see or experience it."

The farm itself is situated on 500 acres on the Goulburn River and hosts more than 10,000 school kids on the property annually with the school camp programs they run. They are also open seven days a week as a fun park featuring archery, rock climbing, horse riding, pedal boats, outdoor ten pin bowling, indoor mini golf and beach volleyball just to name a few of the activities available.

Innovation through collaboration

The Mallee Regional Innovation Centre delivers high-quality research and innovation through collaboration to tackle key regional challenges.

Headquartered in Mildura, the Centre works across horticulture, the environment, energy and water with the support of its partners – The University of Melbourne, La Trobe University and SuniTAFE.

Activities include boosting drought resilience as part of the Victoria Drought and Innovation Hub, ag-tech demonstrations at the SuniTAFE Smart Farm, and driving development of a local hydrogen industry.

Visit the Mallee Regional Innovation Centre site at Mildura Field Days.
